

iDream Learning App is now iPrep - Empowering K-12 students to Learn Unlimited

iDream Education · 3 April 2020

One Learning app that enables access to enjoyable, personalized digital content for Class 1-12 in student-preferred language. [Click here to learn more](#)

Learn how the former iDream Learning App now iPrep facilitated personalized learning experiences to students at home during the COVID-19 Lockdown.

Update: August 2024 - iDream Education launched the iDream Learning App in 2019. The app is now officially known as the iPrep. [Click here to download iPrep on the Play Store/App Store.](#)

It is a mobile app specially designed for students to access enjoyable digital learning and growth content. These students can access the content in this app in English medium for CBSE and in their mother tongue for state boards from any Android / iOS / Or even Windows mobile phone in their homes.

In the current lockdown times, a mobile app is the only possible way of ensuring that engagement and education continuously reach our children in an enjoyable manner. Therefore the company has decided to give a 7-day free trial for students to try and test the application.

On the launch, Puneet Goyal Director at iDream Education shared, " We have been working exclusively on ICT and digital education for schools for the past few years with a vision to empower and handhold our students and schools with digital learning for skills and growth.

Therefore as soon as the lockdown was enforced by the Coronavirus Pandemic, we started working on the iDream Learning App which is now called the iPrep Learning app. That was to ensure that best of digital learning content can reach every student in their homes."

Further, the learning app currently has digital content in major local languages including English, Hindi, Marathi, Gujarati, Tamil, Telugu, Kannada, and Bengali aligned as per all major state boards.

Content Aligned with State Boards' Curriculum

Students can choose to learn in CBSE or any other State Board

Multiple Categories of Learning Content

“A great value & differentiator of the iPrep Learning App is that it offers educational digital content of different types. It includes Animated Video Lessons, project & activity videos, life skills content including health & hygiene, and a rich digital book library in a single view to the student.” shared, Rohit Prakash, the other co-founder at iDream Education.

Multiple Categories of Learning and Growth Content on the iPrep App

Outreach to the Parents, Schools, and the Social Sector

There is no doubt that the iPrep App fulfills a very timely and pressing need for the parents, schools, and the social sector in school education.

The Army in Kashmir was one of the first users of the iDream Learning App and they now have access to its newer version, called the iPrep Learning App. Here we circulated the app to the parents and students of all the Army Goodwill Schools across Kashmir. So that, the students can continue their education from their homes in these difficult times.

Following that, various parent groups are promoting and sharing the free learning app in their circles.

Since the app has content in local languages also for government school students, therefore immediately after launch, many national NGOs and CSR organizations came together and partnered with iDream Education to take the mobile application to their target beneficiaries across different states in India.
